

TECHNICAL CLEANERS

INA Solven RAV 10

Mild alkaline product for cold removal of oil contaminations in industry and workshops

Chemical composition

Mixture of water, tenside, amine and etoxilated fatty alcohol

General Description - Application

INA Solven RAV 10 is suitable for cold removal of oils and greases from vehicles, sheet metals, pipelines, etc. It is specially suitable if looking for odorless and solvent-free product. This product is not aggressive to steel, varnish, sealing materials and glass. It is used diluted with water in the ratio up to 1:10, depending on the grade of contamination.

INA Solven RAV 10 could be applied on surfaces by brushing, spraying or wiping, than rinse with water.

Ecological and disposal information

For precaution reasons take care that no uncontrolled release of product into environment will occur. It is necessary to use oil separator, to neutralizate (dilute) the water layer and to control the concentration of nonionic tensides before draining waste waters into the sewage system. This needs to be carried out in accordance with valid legal regulations.

Handling and storage

Use suitable personal protective equipment.

Store in closed or roofed over warehouse, recommended storage temperature from 5 to 40 °C.

Storage time is at least 12 months at above specified conditions.

Properties	INA Solven RAV 10	Method
<i>CONCENTRATE</i>		
Appearance and Colour	light green liquid	Visual
Density at 20 °C, g/cm ³	1,07	ASTM D 4052
Solubility in water	soluble	-
pH Value (10% solution at 20°C)	9,1	ASTM D 1287

Packaging

10 l plastic container

The above figures are typical of those obtained with normal production tolerance and do not constitute a specification.
